

### International

U: Be able to explain how oil becomes a reason for conflict between countries and give examples.

Choose 2 countries whose relationship has strained due to oil. What has the impact been for everyone involved? Produce a presentation using an app of your choice.

*Complete:  
One International, One  
Subject & One Personal  
Learning Task*

# Home Learning

### History/Geography

K: To identify the major oil spills throughout history and how the environment has been affected.

Choose the way to present this.

### Technology

S:: Be able to explain how technology regarding oil spills has been developed over time.

Produce a timeline for the technology change.

### Geography

K: Find out how much oil a country uses compared to its size. Compare it to another. Analyse the data.

Produce a set of graphs or charts to show findings.

### Personal learning

#### Respect:

Choose one oil company and research how they have tried to show more respect towards the environment and their practices.

#### Enquiry

Watch Al Gore's film, An Inconvenient Truth (adult supervision may be needed)

### International

U: Be able to explain how oil affects your Home Country and compare it to your Host Country. Ask and answer your own questions.
